

Paris, Thursday 27 May 2021

**Success of the 8th CIC Market Solutions Forum,
held in a digital format on 19, 20 and 21 May,
with more than 150 listed companies and 400 investors**

Since it was launched eight years ago, this annual forum has established itself as a key market event in Paris. The 2021 edition featured 610 meetings and 3,600 exchanges between investors and companies.

Half of the companies in attendance are listed on the SBF120; one out of every three was non-French; and 70% were represented by their CEO or CFO. These figures confirm our position as a domestic leader and illustrate our development goals in Europe, especially in Germany.

The virtual meetings were held in both one-to-one and one-to-few formats, and CIC Market Solutions' teams worked together to make each one a success.

This special event was also punctuated by four plenary meetings:

- The economic and strategy presentation by François Duhén, Chief Economist and Strategist, was followed by more than 260 people live
- The technical analysis presentation by Eva Bellin was attended by over 120 participants
- The presentation by Philippe Santi, Vice CEO of Interparfums
- The presentation from La Française des Jeux represented by Pascal Chaffard, Vice President of Finance, Performance & Strategy and Marc Willaume, Financial Communication and Investor Relations

These highlights are available in replay on the CIC Market Solutions app.
