## EXTEL 2026 RESULTS CIC CIB takes third place!

For the third consecutive year, CIC Corporate & Institutional Banking has recorded the strongest growth in the number of votes in the 2026 Extel survey. It now ranks number 3 in the “Local Broker France” category, having steadily increased its market share since 2024.

This growth is evident across all categories in the France survey: Corporate Access, Research, Sales, and Trading & Execution are now all ranked third. Research on small- and mid-cap stocks maintained its excellent fourth-place ranking.

This important study of the brokerage industry, to which more than 1,700 asset managers worldwide were invited to contribute, highlights the recognition of the efforts made by CIC CIB’s teams in Paris and New York, as well as their commitment to delivering high-quality service to their asset manager clients.

We would like to thank all our clients for their support as well as all our staff, who contributed to these excellent results!
